By Race:

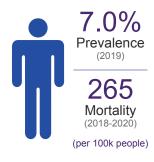

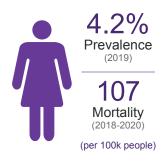

CVD Mortality by Race (2018-2020) (per 100k people)

By Sex:

By Income:

Cardiovascular Disease (CVD) is the most common cause of death in Men, Women, and most racial and ethnic groups in the United States.

Americans living in the American South, particularly in the Appalachian Region, are disproportionately impacted by CVD in terms of both diagnoses and mortality.

Highest rate

CVD diagnosis West Virginia

Mortality 305.8 (per 100k people) Mississippi

Lowest rate

CVD diagnosis
District Columbia
